FILE NO. 244-72-1 ORDINANCE NO. 121-72

AMENDING UNIFORM LOCAL SALES AND USE TAX ORDINANCE OF THE CITY AND COUNTY OF SAN FRANCISCO (ORDINANCE NO. 363-58), INCREASING THE RATE OF THE LOCAL SALES AND USE TAX FROM 1% TO 1¼% COMMENCING JULY 1, 1972; REDUCING THE EXEMPTION OF GROSS RECEIPTS FROM THE SALE OF PROPERTY TO OPERATORS OF COMMON CARRIERS AND WATERBORNE VESSELS TO 80% OF SUCH GROSS RECEIPTS; AND RENDERRING THE ORDINANCE INOPERATIVE FOLLOWING LACK OF COMPLIANCE BY THE CITY AND COUNTY WITH ARTICLE 11 OF CHAPTER 2 OF DIVISION 3, TITLE 3 OF THE CALIFORNIA GOVERNMENT CODE.

Be it ordained by the People of the City and County of San Francisco:

Section 1. Section 2 of Ordinance No. 363-58 entitled "Uniform Local Sales and Use Tax Ordinance of the City and County of San Francisco" is amended to read as follows:

Sec. 2. Purpose of Ordinance. The Board of Supervisors of the City and County of San Francisco hereby declares that this ordinance is adopted to achieve the following, among other, purposes, and directs that the provisions hereof be interpreted in order to accomplish those purposes:

(a) To adopt a sales and use tax ordinance which complies with the requirements and limitations contained in Part 1.5 of Division 2 of the Revenue and Taxation Code of the State of California;

(b) To adopt a sales and use tax ordinance which incorporates provisions identical to those of the Sales and Use Tax Law of the State of California insofar as those provisions are not inconsistent with the requirements and limitations contained in Part 1.5 of Division 2 of the Revenue and Taxation Code;

(c) To adopt a sales and use tax ordinance which imposes a one and one-quarter percent (1-1/4%) tax and provides a measure therefore that can be administered and collected by the State Board of Equalization in a manner that adapts itself as fully as practicable

to, and requires the least possible deviation from, the existing statutory and administrative procedures followed by the State Board of Equalization in administering and collecting the California State Sales and Use Taxes;

(d) To adopt a sales and use tax ordinance which can be administered in a manner that will, to the degree possible consistent

with the provisions of Part 1.5 of Division 2 of the said Revenue and Taxation Code, minimize the cost of collecting county sales and use taxes and at the same time minimize the burden of record keeping upon persons subject to taxation under the provisions of this ordinance.

Section 2. Section 4 of said ordinance is amended to read as follows:

SEC. 4. Imposition and Rate of Sales Tax. Place of Business. Application of Sections of State Revenue and Taxation Code; Exceptions. Permits. Exemptions.

(a)(1) For the privilege of selling tangible personal property at retail a tax is hereby imposed upon all retailers in the City and County at the rate of one percent (1%) of the gross receipts of the retailer from the sale of all tangible personal property sold at retail in the City and County of San Francisco on and after July 1, 1958, to and including June 30, 1972, and at the rate of one and one-quarter percent (1-1/4%) thereafter.

(2) For the purposes of this ordinance, all retail sales are consummated at the place of business of the retailer unless the tangible personal property sold is delivered by the retailer or his agent to an out-of-state destination or to a common carrier for delivery to an out-of-state destination. The gross receipts from such sales shall include delivery charges, when such charges are subject to the state sales and use tax, regardless of the place to which delivery is made. In the event a retailer has no permanent place of business in the State or has more than one place of business, the place or places at which the retail sales are consummated shall be determined under rules and regulations to be prescribed and adopted by the Board of Equalization.

(b)(1) Except as hereinafter provided, and except insofar as

BOARD OF SUPERVISORS

they are inconsistent with the provisions of Part 1.5 of Division 2 of the Revenue and Taxation Code of the State of California, all of the provisions of Part 1 of Division 2 of said Code, as amended and in force and effect on July 1, 1958, applicable to sales taxes are hereby adopted and made a part of this section as though fully set forth herein.

(2) Wherever, and to the extent that, in Part 1 of Division 2 of the Revenue and Taxation Code the State of California is named or referred to as the taxing agency, the City and County of San Francisco shall be substituted therefor. Nothing in this subdivision shall be deemed to require the substitution of the name of the City and County of San Francisco for the word "State" when that word is used as a part of the title of the State Controller, State Treasurer, the State Board of Control, the State Board of Equalization, or the name of the State Treasury, or of the Constitution of the State of California; nor shall the name of the City and County be substituted for that of the State in any section when the result of that substitution would require action to be taken by or against the City and County or any agency thereof, rather than by or against the State Board of Equalization, in performing the functions incident to the administration or operation of this ordinance; and neither shall the substitution be deemed to have been made in those sections, including, but not necessarily limited to, sections referring to the exterior boundaries of the State of California, where the result of the substitution would be to provide an exemption from this tax with respect to certain gross receipts which would not otherwise be exempt from this tax while those gross receipts remain subject to tax by the State under the provisions of Part 1 of Division 2 of the Revenue and Taxation Code; nor to impose this tax with respect to certain gross receipts which would not be subject to tax by the State

BOARD OF SUPERVISORS

under the said provisions of that Code; and, in addition, the name of the City and County shall not be substituted for that of the State in Sections 6701, 6702, except in the last sentence thereof, 6711, 6715, 6737, 6797, and 6828 of the Revenue and Taxation Code as adopted.

(3) If a seller's permit has been issued to a retailer under Section 6067 of the Revenue and Taxation Code, an additional seller's permit shall not be required by reason of this section.

(4) There shall be excluded from the gross receipts by which the tax is measured:

(i) The amount of any sales or use tax imposed by the State of California upon a retailer or consumer.

(ii) Eighty percent (80%) of the gross receipts from the sale of property to operators of common carriers and waterborne vessels to be used or consumed in the operation of such common carriers or waterborne vessels principally outside of this City and County.

Section 3. Section 5 of said ordinance is amended to read as follows:

SEC. 5. <u>Imposition and Rate of Use Tax. Application of Sections of State Revenue and Taxation Code; Exemptions</u>.

(a) An excise tax is hereby imposed on the storage, use or other consumption in the City and County of San Francisco of tangible personal property purchased from any retailer on or after July 1, 1958, for storage, use or other consumption in the City and County of San Francisco at the rate of one percent (1%) of the sales price of the property to and including June 30, 1972, and at the rate of one and one-quarter percent (1-1/4%) thereafter. The sales price shall include delivery charges when such charges are subject to State sales or use tax regardless of the place to which delivery is made.

(b)(1) Except as hereinafter provided, and except insofar as they are inconsistent with the provisions of Part 1.5 of Division 2 of the Revenue and Taxation Code of the State of California, all of the provisions of Part 1 of Division 2 of said Code, as amended and in force and effect on July 1, 1958, applicable to use taxes, are hereby adopted and made a part of this section as though fully set forth herein.

(2) Wherever, and to the extent that, in Part 1 of Division 2 of the Revenue and Taxation Code the State of California is named or referred to as the taxing agency, the name of this City and County shall be substituted therefor. Nothing in this subdivision shall be deemed to require the substitution of the name of this City and County for the word "State" when that word is used as part of the title of the State Controller, the State Treasurer, the State Board of Control, the State Board of Equalization, or the name of the State Treasury, or of the Constitution of the State of California; nor shall the name of the City and County be substituted for that of the State in any section when the result of that substitution would require action to be taken by or against the City and County or any agency thereof rather than by or against the State Board of Equalization, in performing the functions incident to the administration or operation of this ordinance; and neither shall the substitution be deemed to have been made in those sections including, but not necessarily limited to, sections referring to the exterior boundaries of the State of California, where the result of the substitution would be to provide an exemption from this tax with respect to certain storage, use or other consumption of tangible personal property which would not otherwise be exempt from this tax while such storage, use or other consumption remains subject to tax by the State under the provisions of Part 1 of Division 2 of the Revenue and

Taxation Code, or to impose this tax with respect to certain storage, use or other consumption of tangible personal property which would not be subject to tax by the State under the said provisions of that code; and in addition, the name of the City and County shall not be substituted for that of the State in Sections 6701, 6702, except in the last sentence thereof, 6711, 6715, 6737, 6797 and 6828 of the Revenue and Taxation Code as adopted, and the name of the City and County shall not be substituted for the word "State" in the phrase "retailer engaged in business in this State" in Section 6203 nor in the definition of that phrase in Section 6203.

(3) There shall be exempt from the tax due under this section:

(i) The amount of any sales or use tax imposed by the State of California upon a retailer or consumer.

(ii) The storage, use or other consumption of tangible personal property, the gross receipts from the sale of which has been subject to sales tax under a sales and use tax ordinance enacted in accordance with Part 1.5 of Division 2 of the Revenue and Taxation Code by any city and county, county or city in this State.

(iii) Provided, however, that the storage or use of tangible personal property in the transportation or transmission of persons, property, or communications or in the generation, transmission or distribution of electricity or in the manufacture, transmission or distribution of gas in intrastate, interstate or foreign commerce by public utilities which are regulated by the Public Utilities Commission of the State of California shall be exempt from eighty percent (80%) of the tax due under this section.

AMENDING PART II, CHAPTER X, SAN FRANCISCO MUNICIPAL CODE (PUBLIC WORKS CODE) BY AMENDING SECTION 148 THEREOF, CHANGING THE EFFECTIVE DATE SET FORTH THEREIN TO JANUARY 26, 1972, AND ADDING SECTION 149 THERETO, SETTING FORTH FINDINGS AND DECLARATION SUPPORTIVE OF SAID CHANGE OF EFFECTIVE DATE.

Be it ordained by the People of the City and County of San Francisco:

Section 1. Part II, Chapter X, San Francisco Municipal Code (Public Works Code) is hereby amended by amending Section 148 thereof to read as follows:

SEC. 148. Effective Date; Operative Date. This Article shall become effective upon passage as provided in Section 2.304 of the Charter, except that the sewer service charge imposed by this Article shall become operative and shall be imposed on and after January 26, 1972.

Section 2. Part II, Chapter X, San Francisco Municipal Code (Public Works Code) is hereby amended by adding Section 149 thereto, reading as follows:

SEC. 149. Findings and Declaration. The Board of Supervisors hereby finds that an ordinance imposing a sewer service charge upon users of the sewerage facilities within the City and County was enacted on August 24, 1971, effective as of September 1, 1971; that said sewer service charge is to be based, in general, upon the quantity of water delivered to said users and is to be collected by the San Francisco Water Department in the manner and at the times of collection of charges for water delivered to said users; that before any charges for said sewer service were billed or collected, the Office of Emergency Preparedness advised the City that imposition and collection of said sewer service charges by the City is a violation of the provisions of the Economic Stabilization Act of 1970 and Executive Order No. 11615; that on December 16, 1971, upon the advice of the Federal officials involved, and pursuant to rules and regulations of the Price Commission, Washington, D.C., the City filed application for permission to proceed with the imposition of the sewer service charge as authorized by the aforesaid ordinance; that effective as of January 26, 1972, the Cost of Living Council exempted all local governmental sewer service charges from compliance with the stabilization program; that on March 16, 1972, the Price Commission, Washington, D.C., ordered that the City be permitted to initiate a sewer service charge as of November 14, 1971; that by virtue of said order of said Price Commission users of sewer services of the City and County are now liable for charges for such services furnished on and after November 14, 1971; that the electronic data processing equipment of the San Francisco Water Department which is to be utilized in the billing and collection program of the aforesaid sewer service charge is presently operating on a 24-hour basis from Monday to Friday inclusive of each week and on an eight-hour basis on each Saturday and Sunday, and presently, and since January 26, 1972, is handling the billing and collection of sewer service charges based upon water delivered on and after January 26, 1972; that to initiate at this time an electronic data processing program solely to bill and collect sewer service charges for the period November 14, 1971, to January 25, 1972, could be disruptive of the ongoing programs being carried out by the San Francisco Water Department's electronic data processing staff and equipment; that billing and collecting for past services at this time would impose an economic hardship upon the residents of the City and County, particularly those who are elderly or otherwise disadvantaged; that, in view of the foregoing, the Board of Supervisors hereby finds and declares that initiation of imposition of the sewer service charge on and after January 26, 1972, rather than on and after November 14, 1971, will promote and safeguard the general welfare of the City and County of San Francisco.

Be it ordained by the People of the City and County of San Francisco:

Section 1. Sections 141, 142, 145 and 146, Article 4.2, Part II, Chapter X, San Francisco Municipal Code (Public Works Code) are hereby amended to read as follows:

SEC. 142. Charges.

(a) There is hereby imposed a sewer service charge for the receiving, transportation, pumping, treatment and disposal of sewage through the sewerage system, and general maintenance and operation of the sewerage system.

(b) The sewer service charge shall be:

(1) Where the origin of sewage discharge is from water from a Water Department source, the sum of a charge equal to 74.55 percent of each water user's monthly charge for water delivered, excluding the Water Department service charge and the utility tax, and a unit monthly service charge per water meter as follows: 0.84 for single, two or three unit residential; $4.00 for other 5/8 inch meters; $6.30 for other 3/4 inch meters; $9.60 for other 1 inch meters; $14.30 for other 1-1/2 inch meters; $16.80 for other meters larger than 1-1/2 inches.

(2) Where the origin of sewage discharge is from water other than from a Water Department source, and exceeds a monthly flow rate of 1000 cubic feet, the charge shall be at the rate of 30.0 cents per hundred cubic feet in excess of 1000 cubic feet. Any expense necessary to determine the volume of discharge shall be borne by the user. The volume of discharge finally determined by the City Engineer may be appealed to the Director in accordance with Section 145 of this Article.

(c) Those services used solely for fire services or hydrant meter services as defined by the Water Department shall be exempted.

(d) Certain exemptions or adjustments set forth hereinbelow may be granted upon application in writing to the City Engineer and after verification of the alleged facts that the user meets any of the following exceptions:

(1) Any user of a residential premise having a separate metered service for each dwelling unit within said premises may be billed at the lower residential meter service rate set forth hereinabove.

(2) A service or meter used exclusively for irrigation purposes.

(3) Where no water from a service or well enters the sewerage system either through a private or city-owned sewer lateral, gutter,

catchbasin or storm water inlet.

SEC. 145. Exemption and Adjustment Proceedings. The Director shall establish rules and regulations for the filing, review and determination of exemptions or adjustments and, insofar as consistent with the provisions of this section, for any appeals to said Director from determinations thereon.

Any user who so qualifies as provided in Section 142(d) of this Article may apply in writing for an exemption or adjustment to the City Engineer within thirty (30) days from the date the bill is mailed or delivered with respect to the period for which the user seeks such exemption; or adjustment provided, however, that no exemption or adjustment shall be allowed for any period prior to the period covered by said bill, except as otherwise provided for herein.

The City Engineer shall act upon each application upon receipt and shall make a determination thereon within thirty (30) days from the date said application is filed whenever reasonably possible, and shall immediately notify the applicant in writing of his determination on the application for exemption or adjustment. Request for additional information may be made to the applicant, and if the applicant fails to produce the requested information or fails to request an extension of time in writing within thirty (30) days from the date of mailing the request therefor, proceedings may be terminated.

Any person who has filed an application for an exemption or adjustment and received a determination thereon, and who has otherwise complied with the procedures of this section, may appeal such determination to the Director pursuant to procedures, rules and regulations adopted by the Director for such purpose. An appeal to the Director shall set forth specifically wherein a determination fails to conform to the requirements of this Article or wherein a determination is improper or unreasonable. Such appeal must be filed within ten (10) days following the date of mailing notice of the determination on the request for exemption or adjustment. The Director shall set a time for hearing the matter, and shall mail written notice thereof no less than ten (10) days prior to the date of such hearing to the person who has so filed.

A hearing upon an appeal shall be set whenever reasonably possible no later than thirty (30) days after the date of filing the appeal.

The Director may continue the hearing from time to time at his discretion, and shall make a written determination upon the appeal within fifteen (15) days from the conclusion of the hearing and provide a copy thereof to the person who filed said appeal.

Where no appeal has been filed, an exemption or adjustment determination shall become final upon the termination of time for filing an appeal to the Director as provided for in this section. In the event an appeal has been timely filed, the determination by the Director upon such appeal shall be final.

The filing of an application for an exemption or adjustment or of an appeal to the Director from a determination thereon shall not stay the continued and further billing during the course of time consumed in said proceedings, but any continued and further billing will be adjusted, if appropriate, at the termination of the proceedings pursuant to and in conformance with the determination therein. Provided, however, that acceptance of any payment by City subsequent to the application for said exemption or adjustment shall not preclude billing and collection different from or in excess of such payments and in conformance with said final determination.

SEC. 146. Sewer Service Fund; Establishment; Purposes; Appropriations Therefrom: The Water Department shall transmit all sewer service charges collected pursuant to this Article to the Treasurer of City for deposit to the credit of a special fund to be known as the Sewer Service Fund. Said fund shall be used solely for the following purposes

(1) All expenses incurred by the Department of Public Works in the administration and enforcement of the provisions of this Article.

(2) Administrative expenses incurred by the Water Department in billing and collecting sewer service charges.

(3) Refunds and adjustment of any overpayments of the sewer service charge imposed hereunder.

(4) Financing of sewerage system projects including but not limited to, general obligation bonds and related costs.

(5) Maintenance and operation of the sewerage system. The monies in the Sewer Service Fund shall be set aside for the aforesaid purposes, and appropriations therefrom shall be made by the Board of Supervisors pursuant to the budget and fiscal provisions of the Charter.

Section 2. This ordinance shall become effective upon passage as provided in Section 2.304 of the Charter; provided, however, that the collection of the sewer service charge from a user as set forth herein shall become operative on May 17, 1972, and shall commence with the beginning of the first regular billing period applicable to said user which starts on or after said May 17, 1972.

Sec. 907. Owners Must Remove In Required Time. Any owner or operator having utility facilities upon, in, over or under the streets upon, in, over or under which any public work is authorized to be done, shall, upon receipt of a Notice pursuant to Sec. 906, and at his expense, cause to be removed or be adjusted within the time specified in the Notice, so much of the affected utility facilities belonging to or under the control of such owner or operator as will allow the authorized work to be prosecuted according to the plans and specifications therefor.

Sec. 908. Failure - Work May Be Done by Director. If any owner or operator shall fail, neglect or refuse to comply with the requirements set forth in a Notice issued pursuant to Sec. 906, then, and in that event, the Director shall cause to be removed or be adjusted so much of the utility facilities as may be required for the prosecution of the said authorized public work according to the plans and specifications therefor; and the incidental expenses incurred in the removal or adjustment shall be chargeable to the owner or operator failing, neglecting or refusing to comply with the requirements of the Notice, and may be recovered in an action at law brought in the name of the City against such owner or operator.

Sec. 909. Director May Enter into Agreement with Owner or Operator. The Director, with the approval of the Chief Administrative Officer, may enter into an agreement with the owner or operator of any utility facility which may require support, protection and working around in order to successfully prosecute the construction of public work, to have any such support, protection and working around included as a part

of a contract for public work. The cost of any such support, protection and working around a utility facility shall be borne by the owner or operator thereof.

Sec. 910. Department to Provide Administration, etc. - Cost. Pursuant to Sec. 909 the Department will provide administration and other necessary services during the progress of the construction. The estimated cost of administration, preparation and supervision of the contract attributable to the work, shall be included in the agreement.

Sec. 911. Underground Districts Designated. For the purpose of removing poles and placing wires underground, the City shall be devided into districts designated as Underground Districts, which Underground Districts are more particularly described in Order No. 214 (Second Series) and amendments thereto and other ordinances on file in the Office of the Clerk of the Board and in the offices of the Director and the City Engineer. The yearly rate to be accomplished by converting from overhead facilities to underground construction shall be in accordance with the limitation imposed by the funds allocated by the Serving Companies for such conversion, as ordered and required by the California Public Utilities Commission, provided that not more than four (4) miles of streets shall be completed as Underground Districts in each calendar year, excepting such additional mileage as may be accomplished through allocation or reallocation of funds as provided by regulations of the California Public Utilities Commission.

Sec. 912. Need for Underground District to be Determined. Each Underground District shall be established by Ordinance on streets, public places, or stated areas having existing poles and overhead utility facilities, when required for reasons of public necessity, health, safety, or welfare, and when in the public interest for one or more of the following reasons:

(a) to avoid or eliminate an unusually heavy concentration

of overhead distribution facilities;

(b) the street, road or right-of-way is extensively used by the general public and carries a heavy volume of pedestrian or vehicular traffic;

(c) the street, road or right-of-way adjoins or passes through a civic area, public recreation area, or an area of unusual scenic interest to the general public;

(d) in connection with a public street improvement, street reconstruction between property lines, street widening or realignment.

Sec. 913. Removal of Overhead Utility Facilities in Designated Districts - Exemptions. The removal of all existing surface and overhead utility facilities shall be accomplished on or before the date specified in the Ordinance by which the underground district is designated and established. On and after that date no surface or overhead utility facilities shall be erected or installed for any purposes in any underground district, except as are exempted in this Article.

Sec. 914. Exemptions to Undergrounding. The following are expressly exempted from the provisions of this Article, with respect to undergrounding:

Trolley poles and trolley contact wires used exclusively for the transmission of electrical power for transit vehicles; single primary distribution circuits and single telephone, telegraph or other cables which cross designated districts or parts thereof not further than to the extent of the width of a single street; terminal cabinets and meter boxes when the size and location have been approved by the Director. The feeders or electrical service conductors for the trolley contact wires shall conform to the undergrounding requirements of this Article.

Additional variances may be granted by the Director.

Sec. 915. Public Hearing - Notices. Public hearings shall be held by the Director before the establishment of an underground district. Notices of the public hearing shall be conspicuously posted along all the streets within the district, and each affected property owner and owner or operator in such district shall be notified by mail of the time and place of the hearing, in accordance with the provisions of Sections 193(a), 193(b) and 241 of Article 6 of the Public Works Code with respect to such notifications. Written protests, objections or other comments regarding the proposal must be filed with the Director before the date of the hearing, or may be made in person during the hearing or on the day to which action on the proposal may be postponed. If the underground district is approved by the Director at this hearing, legislation will be forwarded to the Board of Supervisors for enactment of an ordinance establishing the district.

Sec. 916. Removal of Overhead Utility Facilities - Responsibility for - Cost. The removal of overhead utility facilities shall be the responsibility of and be done by and at the cost of the owner or operator so owning, controlling, operating or using same. Before the underground installation of any utility facilities a permit for such installation shall first be secured pursuant to Sec. 901 hereof.

Sec. 917. Responsibility of Property Owners. In any district that the Board may designate as an Underground District, the owner of a building or other structure will provide, as necessary, at his expense, all conduit and associated equipment required to receive utility service between the facilities of the Serving Company and the terminal facility in or on the building or structure, and all trenching, excavation, backfilling and paving necessary to allow the installation of the service lateral. The installation of conduit or other enclosures within the building or structure, from the terminal facility, shall be made by the owner in accordance with the provisions of the

San Francisco Electrical Code. The terminal facility shall be located at a point approved in accordance with the rules adopted by the Director of Public Works and satisfactory to the Serving Company.

Sec. 918. Installation of Service Lateral. The Serving Company shall install the service lateral from its distribution line to the terminal facility of the building being served, and provide the conductor or conductors for such service, except as may be agreed between the owner and the Serving Company. Underground construction by the Serving Company shall be accomplished in accordance with the applicable provisions of the San Francisco Electrical Code and the rules and regulations of the California Public Utilities Commission.

Sec. 919. Failure of Property Owner to Install Conduits - Authority to Disconnect. In the event of failure on the part of the owner of the building or other structure to perform the required construction in accordance with the provisions of Sec. 917 within thirty (30) days after receipt of a notice to provide such facilities, in order to permit completion of the service reconnection and the removal of the overhead wires and conductors by the Serving Company or Companies, the Director may order the disconnection and removal of any and all overhead electrical or other service wires or conductors supplying electrical or other service to such building or structure. In the event of such failure by the property owner to act, the Director may, at his discretion, perform the work required of property owners by Sec. 917, and is authorized to use and employ whatever labor, materials and devices may be necessary to effectually carry out the provisions of this Article. The total cost of the labor, materials and devices necessary for the performance of such work shall be paid by the owner of the building or structure for which such work was required.

Sec. 920. Notice to Owner of Failure to Install Service Lateral.

When the Director has determined that the owner of the building or other structure has failed to install the service lateral reconnection required by Section 919 within the time required by Section 919, a notice shall be given to said owner of a public hearing to be held by the Director to confirm the need to order such work done. Said notice shall set forth the street address and a legal description, sufficient for identification, of the property upon which the building or other structure is located. One copy of the notice shall be posted in a conspicuous place upon the building or structure and one copy of the notice shall be served upon the owner either personally or by certified or registered mail. Service by certified or registered mail shall be effective on the date of mailing if mailed postage prepaid, return receipt requested, to such owner at the address of such owner as it appears on the last equalized assessment roll of the county or at the address to which the most recent real property tax bill for said building or structure was mailed by the Tax Collector. If no such address appears on the assessment roll of the county or of the Tax Collector, then a copy of the notice shall be addressed to the owner at the address of the building or structure involved. The failure of the owner to receive such notice shall not affect in any manner the validity of any proceedings taken hereunder.

Sec. 921. Affidavit of Service. The person giving notice as provided herein shall file an affidavit or declaration thereof under penalty of perjury with the Director certifying to the time and manner in which such notice was given. He shall also file therewith any receipt card of such notice by certified or registered mail.

The notice of hearing shall be posted and served at least ten (10) days prior to the time set for the hearing.

Sec. 922. Hearing. The Public Hearing shall be held at the time and place designated in the notice of hearing. For good cause the hearing

may be continued by the Director to a later time. Subject to the procedures prescribed by the Director for the orderly conduct of the hearing, all persons having an interest in the building or structure may present evidence materially bearing on the case for consideration by the Director.

The Director may designate an Assistant Director of Public Works who may act in place of the Director as the hearing officer. The Assistant Director shall have the same authority as the Director to hear and decide the case and to make any order hereinafter provided for.

Sec. 923. Contents of Order. The order shall set forth the street address of the building or structure and a legal description of the premises sufficient for identification. It shall contain a statement of the work required to be done.

The order shall specify the time within which the work required is to be commenced. The order shall further specify a reasonable time within which the work shall be completed.

Upon written application of an interested party the Director may grant a reasonable extension of time not to exceed 30 days within which the required work must be commenced.

The time for completion may be extended by the Director for cause. This shall be in writing upon the application of an interested party.

Sec. 924. Posting and Service of Order. A copy of the order to install the service lateral reconnection in the building or structure shall be posted in a conspicuous place upon the building or structure, and shall be served in the manner prescribed in Section 920 upon all persons to whom the notice of hearing is required to be served, and a copy shall be recorded in the office of the Recorder of the City and County.

Sec. 925. Forfeiture of Owners Right to do Work. Whenever, pursuant to Section 919, the Director determines to do or cause to be done any

of the work described therein, he shall notify the owner of the building or other structure of his intention so to do in the manner set forth in Sec. 920, and shall specify a date upon which he shall solicit bids to do the work. From and after said specified date the owner of the building or other structure shall be deemed to have forfeited all right to do such work on said building or other structure except as the Director may otherwise allow.

Sec. 926. Assessment for Costs. The Director shall take action to have the costs of all work done or caused to be done pursuant to the provisions of Section 919 assessed against the parcel or parcels of land upon which said building or other structure is situated. Such costs shall include, in addition to the cost of installing the service lateral reconnection, an amount equal to fifteen (15) percent of such cost to cover the cost to the City for administration and supervision of the work required.

Sec. 927. Report of Costs. The Department of Public Works shall keep an account of the cost of all work done or caused to be done by the Department of Public Works or by contract to which shall have been added the 15 percent administrative and supervisory cost, and shall render an itemized report in writing to the Board of Supervisors showing such cost.

Sec. 928. Hearing and Confirmation of Report for Special Assessment of Costs. At the time fixed for receiving and considering said report, the Board of Supervisors shall hear the same, together with any objections which may be raised by any property owner liable to be assessed for the cost described in said report, and thereupon may make such modifications in the report as the Board deems necessary, after which by motion or resolution said report shall be confirmed. The cost of installing the service lateral reconnection, as confirmed by the Board of Supervisors, shall constitute a special assessment

against the parcel or parcels of land on which the same existed and shall constitute a lien on said property for the amount of said assessment. After confirmation of said report, a copy thereof shall be transmitted to the Assessor and to the Tax Collector of the City and County, whereupon it shall be the duty of said officers to add the amount of said assessment to the next regular bill for taxes levied against said parcel or parcels of land for municipal purposes, and thereafter said amount shall be collected at the same time and in the same manner as ordinary City and County taxes are collected, and shall be subject to the same penalties and the same procedure under foreclosure and sale in case of delinquency as provided for ordinary taxes of the City and County of San Francisco.

Notwithstanding any provision contained in this Article making the cost of installing the service lateral reconnection a special assessment against the property upon which the same exists, said cost, as confirmed by the Board of Supervisors and to the extent that the same has not been paid to the City, shall be a personal obligation of the property owner and his heirs, successors and assigns, and said owner and his heirs, successors and assigns shall be liable to the City and County of San Francisco for the payment thereof.

Sec. 929. Costs of Service Lateral Installation by City. Whenever the Director, pursuant to authority conferred by this Article, shall cause the service lateral reconnection to a building or other structure to be installed by the Department of Public Works or pursuant to contract, the cost thereof shall be paid from the "Underground Service Lateral Fund" and assessed against the property upon which the particular building or other structure is located.

Sec. 930. Underground Service Lateral Fund. A special revolving fund, to be known as the "Underground Service Lateral Fund" is hereby created for the purpose of defraying the costs and expenses which may

be incurred by the Director of Public Works in carrying out the authority conferred by this Article to install the service lateral reconnections to buildings or other structures.

The Board of Supervisors may by transfer or appropriation, establish or increase the special revolving fund with such sums as it may deem necessary in order to expedite the performance of the work of installing the service lateral reconnection. The special revolving fund shall be replenished with all funds collected under the proceedings herein provided for, either upon voluntary payments or as the result of sale of the property after delinquency, or otherwise. Balances remaining in the Underground Service Lateral Fund at the close of any fiscal year shall be carried forward in such fund.

Sec. 931. Compliance, Rescinding Order. When the building or structure has been found to comply with requirements of the Director, the Director shall issue and record in the offices of the Recorder, City and County of San Francisco, an order rescinding his original order.

Sec. 932. Penalty for Each Day Overhead Utility Facilities Are Left Standing. Any owner or operator who, after the time specified by ordinance for each designated underground district shall neglect to take down and remove the overhead utility facilities, shall be guilty of a misdemeanor, and upon conviction, shall be fined not less than Fifty dollars ($50) or more than Two Hundred Dollars ($200) for every day any part of such overhead utility facilities are left standing.

Sec. 933. Temporary Use of Poles and Overhead Wires in Underground Districts. In cases requiring the temporary use of poles and overhead wires for the purpose of reporting conventions, meetings or other public gatherings, or in cases of emergency, permits may be granted by the Director for the erection of such facilities for a period not exceeding sixty (60) days in each case, conditioned upon erection and maintenance in conformity with the Rules and Regulations of the

Department. The Director, at his discretion, may grant extensions beyond sixty (60) days if the emergency or special conditions still exist.

Sec. 934. Removal of Temporary Poles and Overhead Wires. After the expiration of a temporary permit issued pursuant to Sec. 933 and the emergency or special condition no longer exists, the person, firm, partnership, corporation or public utility shall remove all poles and overhead wires from the underground district in which such temporary use was permitted. Failure to comply with the provisions of this Section shall result in the same penalties as are specified in Sec. 932 of this Article.

Sec. 935. Duties of the Director - Authority to Remove Overhead Utility Facilities. The Director shall be responsible for the enforcement of the provisions of this Article and the Rules and Regulations of the Department relative to and affecting the provisions of this Article, which may from time to time be issued by the Director. The Director, after the expiration of the time specified in Sec. 913, shall have the authority to order the removal, taking down, and carrying away of any and all overhead utility facilities as may not have been previously removed by the Serving Company, as required by the provisions of this Article with respect to Underground Districts. The Director is hereby given authority to use and employ whatever labor, materials and devices may be necessary to effectually carry out the provisions of this Article. The total cost of the labor, materials and devices necessary for the taking down and removing of such overhead utility facilities shall be paid by the Serving Company.

Sec. 936. New Construction - Installation of Service. No permit shall be issued for construction of any new building or structure in any legislated underground district unless all electric, communication or other similar services are installed and provisions are made for resel-

any underground service when such underground service becomes available.

Sec. 937. Underground Utility Facilities to be Included in Construction of New Streets. The Director shall require that all utility facilities and appurtenances necessary to transmit, conduct, or convey electrical energy for the purpose of electric light, heat, power, telegraph, telephone, television signal, communication, or any other electrical service, shall be installed underground by any affected Serving Company when new streets are constructed. Underground distribution and service shall be required for approval of any sub-division map by the City. Such underground installations shall be complete installations as defined in Sec. 900 (k) and (l).

Sec. 938. Director May Enter Into Agreement for Joint Construction. The Director, with the approval of the Chief Administrative Officer, may enter into an agreement with owners or operators of any utility facilities required to be installed underground in any street area by any Ordinance or Code, for the purpose of constructing the utility facilities jointly with public governmental facilities under a public contract. Said owner or operator shall, under such agreement, proceed in accordance with the provisions of Section 910 of this Article.

Sec. 939. Provision for Street Lighting in Plans. The Public Utilities Commission shall determine the intensity of illumination, power and spacing of lighting facilities and other details necessary to secure satisfactory street lighting.

Sec. 940. Underground Wired Street Lighting, Fire Alarm and Police Communication Facilities to be Included in Plans for Construction of Streets. The Director shall require that provision for underground wired street lighting, fire alarm and police communication facilities, including standards, all associated wires, cables, conduits, junction boxes, services, and all connections therewith, be included in all plans, specifications and specifications for the initial construction of streets.

Sec. 941. Cost of Underground Wired Facilities for Street Lighting, Fire Alarm and Police Communication Systems. The cost of underground wired facilities for street lighting, fire alarm and police communication systems shall be borne by the person, firm or corporation paying for the grading, paving, sidewalks and other street construction.

Sec. 942. Money to be Included in Fund When Work Done by City. Money to cover the cost of underground wired street lighting facilities, fire alarm and police communication systems associated with work being done by the City shall be included in the fund provided for the street construction or reconstruction.

Sec. 943. Underground Wired Facilities for Street Lighting, Fire Alarm and Police Communication Systems to Become Property of City. All underground wired street lighting, fire alarm and police communication system facilities, including but not limited to, standards and all associated wires, cables, conduits, junction boxes, services, and all connections therewith, in streets constructed or reconstructed by individuals, firms, corporations, or assessment districts, shall become the property of the City on final completion and acceptance of the work, except when such facilities are installed and are to be owned and maintained by a public utility.

When accepted by the City, City-owned street lighting shall be under the jurisdiction of the San Francisco Public Utilities Commission for maintenance and operation. The Fire Alarm and Police Communication systems shall be under the jurisdiction of the San Francisco Department of Electricity for Maintenance and Operation.

Section 2. Sections 752, 753, 754 and 789 through 794, inclusive, of Article 15 of Chapter X, Part II, of the San Francisco Municipal Code (Public Works Code) are hereby repealed.

Continuous service shall be deemed to have been breached by an employee holding a limited tenure appointment who is laid off for any reason and is not reappointed to a position in the service of the city and county within six months of said layoff.

(b) Vacation allowance provided for in Section 151.4 of the Charter shall be awarded every January 1 and shall be reduced by one-twelfth of the total annual vacation allowance for each twenty-six accumulated working days of absence without pay since the last vacation, except as provided in (c) below; provided, however, that no reduction shall be made for the first fifty-two working days of absence without pay while on any authorized leave, nor for any period in which an employee is absent due to suspension or Workmans Compensation. The total amount of reduction shall be adjusted to the nearest one-half day. Such days of absence need not be consecutive. Where applicable, thirty calendar days of absence shall be

used for the purpose of this subsection in lieu of twenty-six working days.

(c) Vacation rights for employees absent on military leave are governed by the Military and Veterans Code except as provided herein. No vacation deduction shall be made for absence on temporary military leave for a period of ordered leave which does not exceed six (6) months excluding the time involved in going to and returning from such duty. An employee absent on military leave, other than temporary duty as herein defined, shall not be entitled to earn vacation credit for such period of absence provided that periods of extended military leave shall not interrupt service for the purpose of the calculation of the first year or fifth year of continuous service. Vacation allowance in the calendar year of return from extended military leave shall be reduced by one-twelfth of the total annual vacation allowance for each month of such absence in such calendar year of return; provided that an employee who did not earn or was unable to use vacation allowance during the calendar year in which extended military leave began shall be entitled to vacation allowance in the calendar year of return based on the period of time served in the city and county service in both the year of entry and the year of return from military leave, but not to exceed full vacation allowance for the calendar year of return.

(d) For members of the uniformed force of the Fire Department working under the tour system, a week for vacation purposes shall be considered to be that period which includes five (5) successive work days.

Sec. 16.12. Accumulation of Vacations. (a) Except as provided in Section 16.16, and subject to the maximum accumulation allowance of thirty working days as provided by charter, the following shall apply:

1. Employees with less than five years of continuous service may elect not to take their entire vacation in any one year and may carry over not more than five working days a year; provided, however, that
2. Employees with five years and up to but not including fifteen years of continuous service may in any one year and upon approval of their appointing officer carry over not more than ten working days for use in future years; and provided further that
3. Employees entitled to twenty working days vacation a year may elect not to take more than five working days in any one year and may carry over not more than fifteen working days a year for use in future years.

(b) Employees in their final year of service may with the approval of their appointing officer elect to receive a cash payment in lieu of vacation due at the time of separation, provided that the appointment and payment of a replacement for the period of time represented by such cash payment in lieu of vacation is not required. In lieu of such cash payment an employee who separates from city service and who without interruption in his service is appointed to any governmental agency whose employees are eligible for membership in the San Francisco City and County Retirement System may elect to transfer such accumulated vacation to such agency if the agency by rule or regulation permits the crediting of such accumulated vacation.

(c) Appointing officers may not appoint replacements for employees on vacation unless funds have been appropriated for vacation relief.

Sec. 16.14. Vacation Schedules. (a) Each appointing officer shall establish a department vacation schedule prior to

June 1st of each year and employees shall furnish the appointing officer with information concerning vacation preferences prior to the establishment of such vacation schedule. Appointing officers shall give due regard to seniority of employees and the needs of the service. Any such schedule may be amended by the appointing officer at any time, provided, however, that in the event of a dispute concerning the time assigned to the employee for his vacation, the decision of the appointing officer shall prevail; with the exception that unless an emergency situation exists requiring the immediate presence of an employee, the request of employee that vacation shall begin on the day immediately following the employee's normal days off shall be granted.

(b) Vacation periods may be taken on an intermittent daily basis; provided, however, that any employee who is entitled to a vacation allowance of five or more working days shall take at least one full week of his vacation at one time annually.

(c) Uniformed employees of the Fire Department shall be exempt from the provisions of subsection (b); provided, however, vacation periods of such employees shall not be for less than five working days except where such employee is entitled to less than five working days; or when an employee who has started a vacation is disabled because of illness or recurrence of an injury during such vacation. Provided, further, such employees may, on approval of the appointing officer, schedule five working days of their vacation on an intermittent daily basis.

(d) No employee shall be allowed a vacation prior to the expiration of one calendar year from his beginning date.

(e) Prior to February 1st of each year every department shall file with the civil service commission and the controller a report which shall include, in addition to all other information

required by the civil service commission and the controller, the number of vacation days which each employee accumulated from the immediately preceding year, together with the total number of unused vacation days accumulated by each employee for all prior years.

Section 16.15-1. Temporary Employees. Employees occupying positions under temporary appointment shall be governed by the provisions of this article, except as herein provided. Temporary appointees establish their right to a first vacation after the expiration of one calendar year beginning from the date of their appointment, provided that such first vacation may not be claimed until the anniversary date of appointment. Such employment may be under either certification, emergency appointment or appointment exempt from civil service.

Temporary appointees who have established their right to a first vacation shall thereafter have their vacation allowance computed in accordance with Section 16.11 (b). A temporary appointee who is not employed in the city and county service for more than six months from his prior appointment must re-establish vacation eligibility.

Section 2. The effective date of this ordinance shall be July 1, 1972.
